

Bulk Media

Proudly manufactured in Australia using Australian materials

IFS filtration media is suited to a variety of pre-filter and primary filter applications. Bulk Media rolls can be used to provide pre-filtration to extend the life of primary filters, to provide temporary protection to filter banks in the vicinity of construction works or as primary filters in old style deep bed box holding frames. Our Bulk Media rolls come in a variety of standard sizes or can be cut to smaller sizes as required.

IFS G3 Bulk Media rolls filter coarse particles. Manufactured using Australian made needle punched polyester, they provide low resistance to air flow and are classed low efficiency. They are a single denier washable product with a 15 mm loft. IFS G4 and F5 Bulk Media rolls are both manufactured using an Australian made needle punched polyurethane disposable type media with a 20 mm loft and dual layer / dual denier configuration. IFS G4 (MERV 8) Bulk Media rolls provide low to medium efficiency and low resistance to air flow. IFS F5 (MERV 9) Bulk Media rolls filter finer particles, providing medium efficiency while maintaining a relatively low pressure drop. Our 610/25 and 508/25 products suit older type 24" and 20" deep bed boxes respectively.

Technical Data

Model	Colour	Efficiency Class	Type	Loft (mm)	Size (H x L)
G3-2100/40	Grey	G3 / MERV 5	Washable	15 mm	2.1 m x 40 m
G4-2100/25	White	G4 / MERV 8	Disposable	20 mm	2.1 m x 25 m
G4-610/25	White	G4 / MERV 8	Disposable	20 mm	610 mm x 25 m
G4-508/25	White	G4 / MERV 8	Disposable	20 mm	508 mm x 25 m
F5-2100/25	White	F5 / MERV 9	Disposable	20 mm	2.1 m x 25 m
F5-610/25	White	F5 / MERV 9	Disposable	20 mm	610 mm x 25 m
F5-508/25	White	F5 / MERV 9	Disposable	20 mm	508 mm x 25 m
